
Early Days.

Posted by admin - 2007/12/16 10:39

It early days yet in Traffic Detour, but it's only a matter of time before there are lots and lots of people using it.

The time is now to list all of your business's, web sites, promote other referral programs, add your banners and text links. The more you list the more will be seen.

Spend some time looking at other users listings in Traffic Detour then this earns you credits so as you can get your pages, banners, text ads seen within Traffic Detour.

Members will soon be able to use the points they earn in Opportunity Dock to use for promoting their sites in Traffic Detour.

If you need a hand getting setup. Post for help in this forum.

I think I'm beginning to get the hang of this part. But I'm sure I'll have a few questions along the way. Marilyn
